

# Home Rehabilitation

**Asiri Surgical Hospital** (ASH) is proud to introduce the new service of Home Rehabilitation.

- ⇒ Very often the change from hospital to home environment after illness or disability is a traumatic experience for both the caring family and the patient.
- ⇒ This service is a mobile unit assisting “RECOVERING”, “DISABLED” or “ELDERLY” people to regain independence in their daily living tasks in their own home.

*Rehabilitation Gets You Back To Life!*

**ASH is here to help you....**

- ⇒ This service is carried out at your door step. Successful results from the combined efforts of ASH services, recipient and the caring family members.
- ⇒ Asiri Rehab Carers have been hand picked and trained to provide this non intrusive provision of care to your loved one.

**Asiri has a team to assist you....**

- ⇒ Occupational Therapist together with Rehab Coordinator make a home visit to assist and recommend strategies.
- ⇒ Rehab Carers with 2 years working experience in hospital environment and specialized home-rehab training.
- ⇒ Physiotherapist & Psychologist are brought in on doctor or patient request.

**Take the first step  
(independently)**

**Independently do the  
work**

**Independently Bathing**

**Independently eating**

**For Details or Booking:  
Mrs. Manel or Mrs. Valerie**
